

Can You Help?

Angela Sinton, of Dursley, Gloucestershire is seeking to dispose of this fully-set-up aquarium

Brief details: Aqual 215 litre freshwater aquarium complete set up to sell. This belonged to my late husband and cost around £1500 to set up a couple of years ago.

It includes the tank (100cm x 63cm x 40cm), cabinet below with glass fronted doors, pump, heater, protein skimmer, all lighting, fish, bog wood, plants and all associated accessories.

I'm keen to move this on quickly as I am worried I'm not looking after it as well as my husband did. I've not lost any fish so I think that's a reasonably good sign!

Please contact me on angie.sinton@icloud.com if you are interested or able to help.

Thanks in advance for taking the time to read this.

Kind regards,

Angela Sinton
