

W.A.S.P. meets on the second Wednesday of every month at usworth & district working men's club in Washington.

We are always willing to welcome new members no matter how little or much they know about the hobby. We have lectures from leading aquarists and many social events as well as traveling to shows around the region

We have members interested in all branches of the hobby- Marine, Coldwater and Tropical freshwater. Some of our members are prominent on the show scene in the region, others are active on the national scene in more specialist societies. We also have a member who is an F.B.A.S. Judge.

Why not come along and meet new friends with the same interests as you and maybe learn a little What do you have to lose ?
