At

THE GRAMPIAN CLUB,
PATRICK ROAD,
CORBY,
NN18 9NT

Printed by:-
Corby and District
Aquarist Society.

A WORD FROM THE CHAIR

Dear Fellow Fishkeepers,

Welcome to our 2015 Open Show, which is once again will be held at the popular venue, The Grampian Club in Corby.

I look on this not just as an opportunity to see some of the best fish in the country, but to renew old friendships and to make new ones but most importantly to spend time with people who share a common passion "Fishkeeping"

This year we have been successful in securing two F.B.A.S. Championship classes; G - Catfish (other than Corydoras) and S - Livebearers (Wild mollies) So I hope that you will support these two popular classes with some quality entries.

I would like to take this opportunity on behalf of Corby And District Aquarist Society in thanking all the Judges, Sponsors, Exhibitors, The Grampian Club and all the members and friends of C.A.D.A.S. in helping make this show the success that it is.

As in previous years we will be having a Club Stand, hot food will as always be available through the Grampian Cub restaurant

Once again Fancy Guppies UK will be holding one leg of the guppy league. Plus a new comer this year 'The Aqua Factor Bettas'

Finally, don't forget that information about Corby and District Aquarist Society can be found on our WebPages and on Facebook page.

I look forward to seeing you all at the show.

Dave Bent, Chairman

ACKNOWLEDGEMENTS

We would like to thank not only the organisers, but all the judges and the inimitable competitors. Without them there would be no show. The local retailers and of course the manufacturers for their help and support, the aquatic trade and the Federation. For fear of missing out one of the bigger contributors or upsetting anyone for that matter, by missing them out of the list, we hope to avoid this predicament by not naming names, but simply thanking you all very, very much. We do appreciate what you do, or have done to help us make this another successful show, which we are confident it will be.

David A. Page, President.

Tetra

Created by experts to bring out the best in your fish

Superior to flakes	Excellent fish condition	Two formulas in one	Better water quality	Fish prefer Crispel
<p>The health and condition of your fish directly depends on the diet you choose for them. That's why Tetra's laboratory leading research laboratories developed TetraPro Crispel to overcome the drawbacks of flake foods. Produced at a lower temperature, and using a completely different production process, TetraPro offers better nutrition for optimal health and condition. It also results in less waste production, for improved water quality and clarity. The two-color process used to make TetraPro also allows the combination of two formulas into one food, for concentrated benefits on top of a complete, balanced diet. What's more, fish prefer Crispel to flakes, meaning they get a diet they love, as well as one that keeps them in great shape.</p>
