

FOREWORD

SIZE SHEETS 2015

'From the Chairman'.

Thanks as usual go to Colin for collating all the information that he receives from you and that he uses in producing these size books.

Thanks should also go to Paul Barrow of the T.T.A.A. for his help in producing these books.

Please take special note of all the size amendments and name changes that are included in these sheets as there are many this year.

If you have not sent in your workload from please to so as soon as possible. They should have been sent by the 31st December.

Again, I ask you all to keep up to date with all the Show Rules and remember to apply them.

Please forward all your size adjustment forms to Colin as you fill them in and not wait until the end of the year.

This year we are hoping to run a Judges Training Course, if you know of any club member who would like to take part in this training please forward their name and address on Club Headed Paper to Colin and an application form will be sent to them.

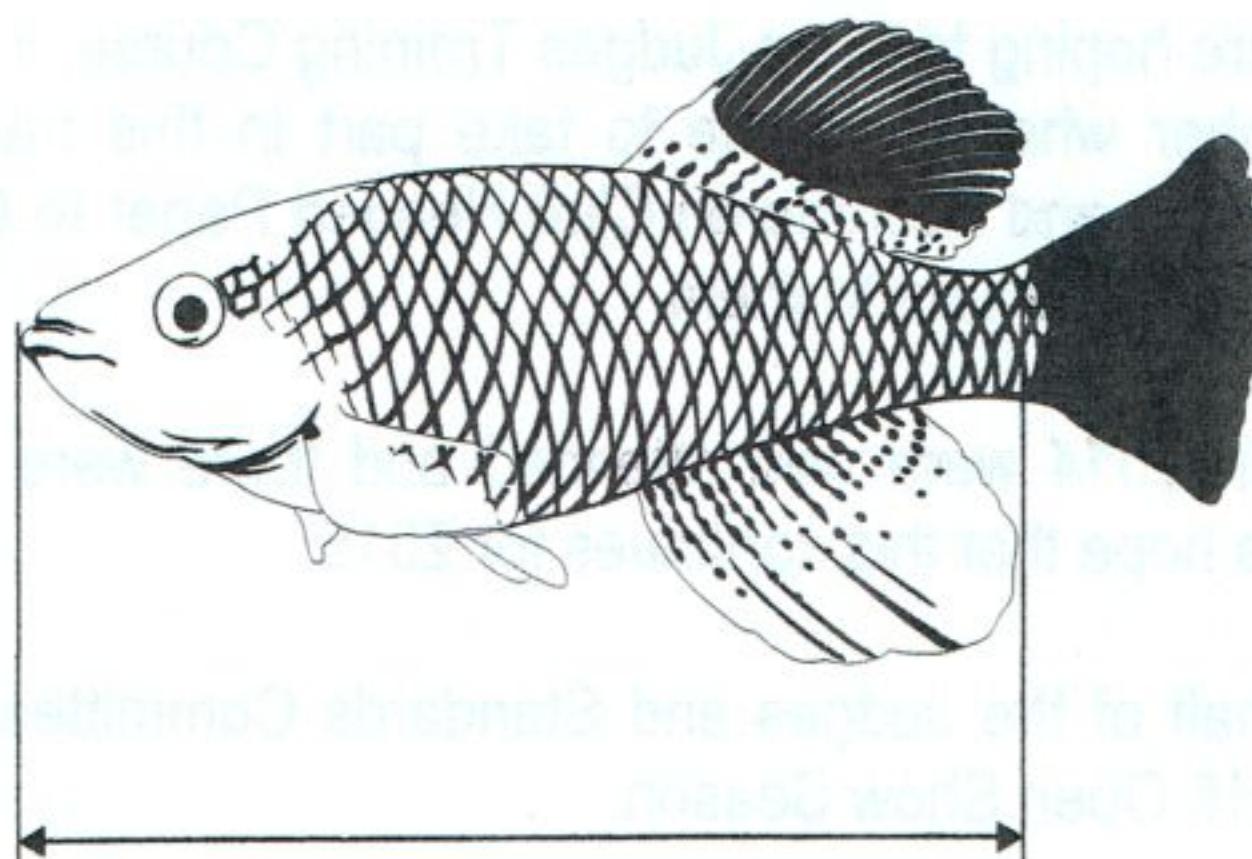

All the show in 2014 were well attended and there were no reported problems. Let's hope that this continues for 2015.

Finally, on behalf of the Judges and Standards Committee all the very best for the 2015 Open Show Season.

Keith Cocker. (Hon. Chairman, J. & S. Committee.)

INDEX EXPLANATION

1. With the exception of the Goldfish classes, 'U' and 'V' and the Koi sub-division, each class has a Size Sheet listing the Genera that is to be exhibited in that class. When the opportunity to exhibit fishes in divided or split Classes does not present itself, then the fishes should be exhibited under their Basic Class Letter.
2. Where a Genus is allocated to more than one Class (i.e. Barbus) reference should be made to the Size Sheets to ascertain the correct Class for each particular species. Genera may also be divided amongst several classes, if in doubt, consult the Index by Class.
3. All sizes are for the standard length of a fish and are shown in millimeters. Where two sizes are given the first refers to the Male and the second to the Female.
4. The standard length is measured from the tip of the snout to the caudal peduncle and not, as is sometimes presumed, to where the caudal fin emerges from the body. The standard length does not include any snout extensions (i.e. Mormyrus engystoma)

CLASS "B" SIZE SHEET

E.	blennioides	85	P.	promelas(gold)	80
E.	caeruleum	50	Pseudogastromyzon	cheni	40
E.	flabellare	55	P.	fasciatus	60
E.	fusiforme	45	P.	myersi	60
E.	gracile	45	Pseudogobio	esocinus	45
E.	kanawhae	60	Pseudorasbora	parva	90
E.	nigrum	55	Pteronotropis	hubbsi	50
E.	radiosum	60	P.	hypselopterus	70
E.	rufilineatum	60	P.	welaka	55
E.	spectabile	50	Pungitius	pungitius	50/60
E.	tetrazonum	65	Rhinichthys	atratulus	90
Forbesichthys	agassizii	60	R.	cataractae	90
Gasterosteus	aculeatus	70/80	Rhinogobius	brunneus (all forms)	70
Gobio	gobio	140	R.	candidianus	70
Gymnocephalus	cernua	150	R.	duospilus (wui)	45
Hemiculter	bleekeri	130	R.	flumineus	50
H.	leucisculus	130	R.	giurinus	60
Hemimyzon	formosanus	70	R.	zhoui	40
Hypophthalmichthys	molitrix	350	R. Species 1	as per photo -	70
Jinshaia	sinensis	70	R. Species 2	-index 1 to 5	70
Lepomis	cyanellus	180	Rhodeus	amarus	70
L.	gibbosus	180	R.	atremius	80

CLASS "W" SIZE SHEET

Where two sizes are given the first refers to the Male and the second the Female

Rhodeus	lighti	45
R.	ocellatus	70
R.	sericeus	70
R.	suigensis	70
Rutilus	rubilio	180
R.	rutilus	180
Sarcocheilichthys	czerskii	70
S.	kiangsiensis	110
S.	lacustris	110
S.	nigripinnis nigripinnis	100
S.	parvus	70
S.	sinensis fukiensis	110
S.	sinensis sinensis	110
Scardinius	erythrophthalmus	180
S. (golden variety)	erythrophthalmus	180
Sinogastromyzon	hsiaoshiensis	70
S.	szechuanensis	70
S.	wui	90
Squalidus	intermedius	90
Squalius	cephalus	260
S.	ghigii	70
Tanakia	tanago	80
Tanichthys	albonubes	35/40
T.	micagemmae	35/40
Tinca	tinca	330
T. (golden variety)	tinca	300
Tribolodon	brandtii	155
Umbra	krameri	90/100
U.	pygmaea	90/100
Zacco	platypus	130
