**Tetra**

**Created by experts to bring out the best in your fish**

Superior to flakes	Excellent fish condition	Two formulas in one	Better water quality	Fish prefer Crisps!
<p>The health and condition of your fish directly depends on the diet you choose for them. That's why Tetra's industry-leading research laboratories developed TetraPro Crisps, to overcome the drawbacks of flake foods. Produced at a lower temperature, and using a completely different production process, TetraPro offers better nutrition for unrivalled health and condition. It also results in less waste production, for improved water quality and clarity. The two-colour process used to make TetraPro also allows the introduction of two formulas into one food, for concentrated benefits on top of a complete, balanced diet. What's more, fish prefer Crisps to flakes, meaning they get a diet they love, as well as one that keeps them in great shape.</p>				

For more information: [www.tetra.net](http://www.tetra.net)

Please remember these few points to make your day enjoyable

This show will run to FBAS rules a copy of which will be on display  
Entries will be restricted to individuals & immediate family members
